

Why is this world created? By Josef Brunnader

“As turning station and redemption for the fallen ones” is the short answer. However, in order to truly comprehend all this, it takes knowledge of the spiritual Primordial Creation, which has been wonderfully revealed to us in the world-end-times, see Acts 2:18, which speaks of the end time prophets

“And I will pour out My Spirit on my servants and handmaidens, and they shall prophecy in those days.”

For those people who will not get stuck on the surface, the outer letter of the (Christian) faith or the ceremonies and the adoration of relics, 1Cor. 2:10 is especially significant: *“These things God has revealed to us through the Spirit; for the Spirit searches everything, even the depths of God.”*

Here is the answer, which requires wisdom, and whosoever does not know heaven cannot understand this world either.

Our material Universe, whose expansion and secrets have not by a long shot been researched in totality, has a greatness that causes us wonder and amazement; and since astronomical science could not manage with our conventional linear measures, such as centimeters or kilometers, they had to come up with a new measure – that of time – the light-year, the light-hour, the light-minute or even light-second. That means the distance, which a ray of light travels in a certain time span – light travels about 300,000km in one second – is the astronomical measure of distance.

For instance, from the sun, our earth is 8.5 light-minutes away, a distance of about 153,000,000 km. What unimaginable greatness first of all of one light-hour, never mind one light-day or even light-year, one can only fathom. There are spiral nebulae or galaxies, which are not only thousands, but billions of light-years from us. In our material universe, there are said to be 100 billions of spiral nebulae (galaxies), of which each has 200 billions of suns and stars. The expansion of our universe is described as having approximately 20 billions of light-years. However, the material universe is again only a microbe of the eternal kingdom of light, whose unimaginable greatness and size we as human beings cannot even fathom. Yet, the material universe is only a product of the terrible fall of the first and greatest child of creation, Sadhana, and her adherents.

The material universe will, after the redemption of all fallen beings, be dissolved within billions of years and will be transformed to its spiritual substances once again. GOD loses nothing!

Now the question raises itself, what important duty or calling does our small planet Earth have in this immense space? From what spiritual substances was this Earth created?

In order to understand this, we have to go into a time that existed long before the falling away (of the spirits) from **GOD**. These are, for us human beings, unimaginable spans of time – for the light-times are totally different from our world time. Yet, even to us mankind is given the Spirit, which searches all things – even the depths of the **GODHEAD**.

We have to make an effort to turn back to the spiritual primordial (original) creation in order to be able to understand all these former events even to a small extent, inasmuch as that is humanly possible.

The spiritual primordial creation began in the eternal Kingdom of Light with the first day of creation, the day of Order. No material universe existed at that time, not for eons of time. On this very first Primordial Day of Creation, **Ur**, that is **GOD**, the **eternally only One True and Holy Ur** – which is the name of **GOD** in the eternal kingdom of light – **UR** raised the first and greatest child of creation into a self-conscious life: Sadhana – a female spirit. After Sadhana, Ur created the seven pairs of Princes in the form of Ur-Archangels, Primordial Archangels male and female, Cherubim and Seraphim. As man and wife He created them. These seven pairs of princes represent the seven basic characteristics of UR. They are Order, Will, Wisdom, and Justice, which are the determining characteristics and Patience, Love, and Mercy, the supporting characteristics.

UR gave to His children an inheritance as well, that is, they received power to be creative, not to be confused with creator-power; God reserved the creator power for Himself alone! Sadhana received one third of this creative power and the seven pairs received two thirds in total.

In the eternal kingdom of light, there are 16 hours in the day and 8 night hours. One hour, in the kingdom of light, probably consists of seven billion earthly hours. This is said to give us an approximate conception of the greatness of one Primordial (Ur) day of creation.

Every pair of princes received one sun. In total, seven Primordial Central Suns now orbit the center of creation, the Sanctum. God designated to each creation-characteristic one day of creation (totaling 7 days). On the fifth day of creation, Sadhana too wanted her own sun, even though in the Sanctum opposite **UR** she occupied the first seat of the children. **UR** granted Sadhana's wish of the sun (Sadhana: "I want! Become a most beautiful sun!!"), and the seven pairs of Princes experience with Sadhana for the first time a powerful creation.

On the sixth day of creation, the day of Love, all further children were called into the life of conscious being, in accordance with **UR**. Sadhana was a very loving (good) faithful child and, with **UR's** help was allowed to call children into being. However, when she was supposed to turn over to the Princes her children in order for them to raise them, she became angry. She did not recognize that this was the test for her, the test of the free will (versus God's will). All children were subject to this test of free will, so that they would recognize that they received from **UR** this greatest gift of all, free will.

Upon the highest mountain of Sadhana's sun Ataraeus (Sun of Hope), **UR** appeared to Sadhana again and again and taught (His laws) to her. Sadhana, little by little began to pout, however, becoming more and more defiant, finally wanting to be like **GOD**. Against **GOD'S** Order, she called a great host of children into being (but not without His secret help), passing herself off (to them) as sovereign. **UR** warned her time and again about the terrible consequences of a falling away from HIS order. However, the darkness increased, and Sadhana then wanted to attack heaven with her host of children, that is, she wanted to attack the Sanctum. She fought with Michael and succumbed – and a terrible fate of creation began its course. Ataraeus burst into pieces, and from these mighty remnants and due to **UR's** mercy, the "catch basin" (for the fallen ones) was formed, that is, the material universe was created. The scientists refer to this mighty event as the "Big Bang," not realizing the spiritual events that had taken place.

Now we come to the question, what great importance does our Earth have, when there are so many great suns and planets out there? **UR** has designated this small world as catch basin and **PLACE OF REDEMPTION**, primarily for His first and great child of creation, Sadhana.

Another great meaning for this world is that it was created mainly from the substances of the top of the mountain Mahapatra (a mountain that was on top of Sadhana's sun Attaraeus). This mountain was the spiritual place from where **UR** taught Sadhana His laws and where He was when he repeatedly warned Sadhana about her fall.

The entire human history, especially the biblical one, is nothing other than a long process of redemption. The most evil beings of darkness as well as the greatest beings of light were and are incarnated on this earth. It is the playground of the darkness, which means they play until they are spent, as they use up all their left-over power until they are so weak that they then become free for their return to **GOD**, free for redemption.

When 2,000 years ago the lowest point (of the fall) was reached **GOD**, in His infinite love and mercy, incarnated in the form of **JESUS CHRIST** in order to bring about, by His incomprehensible sacrifice of love on Golgatha, the greatest demon Lucifer's turning back to **God** (after Sadhana turned away from God, she gave herself a male name). This (Turning Sadhana around and thus overcoming the darkness) is the meaning of the Christ-words "**IT IS FINISHED**"!

The greatest mystery of **GOLGOTHA** is revealed to us human beings in the most glorious way at this world-end-time. It was the most extraordinary decision of our Creator of all time and eternity.

Many children of light (angels) voluntarily gave back to **GOD** the (Father)-child status¹, for which they had worked diligently for some time; and by incarnating on earth they hoped to help their fallen brothers and sisters. The Princes came to this world, such as Muriel, the bearer of Justice, in Abraham. The bearer of Order Uraniel came in Moses as the bringer of **GOD'S** 10 Commandments. Many children of light prepared (earth) for the redemption through **JESUS CHRIST**. The bearer of Mercy Pura came to earth in the form of Mary in order to be able to act as the Savior's mother in accordance with the earthly laws. Everyone knows about JESUS' walk on earth, a walk of infinite love and mercy. However, few people know that JESUS took on parts of Sadhana's heart-power within himself in order to help purify them by HIS unimaginable suffering. If Sadhana would have had to do this herself, it would have taken her immensely long ages. The seven Princes took on parts of her mind-power in order to accomplish the same (cleansing). God granted Sadhana enough power to be able to recognize, standing before JESUS on Golgatha, that there were only two possibilities: either the return (to the Father) or the dissolution of the entire creation. She wrestled with those two options long and hard before she was willing to (begin the long journey back). However, JESUS remained the **VICTOR**, as His words: "**IT IS FINISHED!**" indicate.

Many dark beings, especially the powerful ones went on a romp and still do so today in order to destroy this earth. By these rampages, such as wars, murder, injustice, globalization, etc. these beings gradually lose their power. Often they do not come to this realization until after their physical death, after which they are free for the return and

¹ If the children were to take along their Father-child status while incarnating, they would come into this world with their full power, in which case they would not in all fairness be on the same (power) level as their fallen brothers and sisters.

redemption. Here is the meaning of this verse, which needs wisdom: “*We know that in everything God works for the good of those who love Him.*” (Rom. 8:28)

Often the question comes up: “Why does GOD allow all these things?” The innocent lose nothing, for they came into this world voluntarily in order to help bear all the suffering of need, sorrow, and injustice of the fallen ones. This is often very difficult, because these dark souls do not yet want anything to do with GOD and His redemption. The helpers are the guiltless bearers of the burdens encumbering the fallen ones. Without any fault of their own, they take upon themselves an often very heavy burden of the world.

Dark souls expiate their own collective sins by suffering pain and sorrow, etc. JESUS says: “Come to me those who labor and are heavily burdened, and I will refresh you.”² The fallen ones labor heavily and burdened are the children of light who, without primary blame, have taken burdens upon themselves in order to help the fallen ones.

It is very interesting that the dark souls can, on this earth, disguise themselves very well. Outwardly they can be educated and distinguished, inside, however, they are heartless and without love. JESUS speaks of them as “The wolves in sheep’s clothing!”

However, for everyone comes the hour of reckoning! If an injustice is done, the children of light have accepted it voluntarily in the kingdom of light (before their incarnation); and if they suffer death, war or murder, the souls of light return home very quickly, to the kingdom of light, whence they came.

If the same things happen to the darkened souls, it helps them expiate some of their collective debt! Therefore, there is no need to blame **GOD**. All this be explained but from the spiritual point of view.

Of all of Sadhana’s children, only her first ones, such as Orytam and Hagar, remained faithful to **UR**, which greatly displeased Sadhana. It is the reason why she viciously descended upon them when they took upon themselves the path of co-sacrifice (bearing some of the fallen one’s burdens); for they, Adam and Eve, incarnated on this earth as the first human beings for the last phase of redemption. Sadhana tempted them.... The children of light are tireless in their striving to help their brothers and sisters.

The world is a turning place for the fallen ones. When they incarnate in this world, they receive back their spiritual spark. But they seldom manage to turn themselves around in this world, because their lust for power is strong. And so they do not want anything to do with **GOD**. The most important thing is, however, that after their earthly death they do not return to their previous dark worlds. Instead they manage to come into the purification and developmental spheres, where they then gain God-recognition and they also accept redemption through **JESUS**.

Usually, the dark souls incarnate on this earth only once. Since they would only add on to their being increased dark power with each incarnation, repeated incarnations would not make much sense. The true goal is after all the eternal kingdom of light, not this impoverished dark world! **GOD** wants to redeem them, after all, not burden them anew repeatedly.

To assume that everyone should have to incarnate again and again until all is expiated means not to comprehend redemption through our Savior **JESUS CHRIST**, but is suffering under false assumptions. No one can redeem himself, but all are subject to

² Matth. 11:28

the grace and mercy of **GOD**. Besides, the idea of self-redemption stems from the arrogance of the dark world. No one can earn heaven. **JESUS** said he who keeps an account has his wages. True love does not keep account, rather one who loves helps others and does good deeds for the sake of doing good.

He who honestly seeks the truth and loves **GOD** loves to explore **GOD'S** spiritual **UR**-Creation; and the more one recognizes the (truth), the more one will love **GOD** and His creation.

Most people are occupied with all too worldly things or are bored; or they seek the numbing effects of alcohol. Only, or as soon as they are struck with illness, suffering, death or the like, they complain: "Why does God let such things happen?", even though they almost never cared about **GOD**. Nothing evil or bad comes from **GOD**, not even an affliction such as illness, etc. All these things are mostly effects of wrong living or caused by the dark forces.

In order to recognize all these things **GOD**, in the present time, gave us this great gift of glorious revelations through His messenger of light by the name of Anita Wolf.

The work "UR-Ewigkeit in Raum und Zeit" ("UR" or "Primordial" Eternity in Time and Space) is for me the greatest and purest revelations since 2,000 years, therefore, since **JESUS'** Sacrifice of Love on Golgatha. It leads us deeply into the profoundly spiritual primordial creation, explains the gift of the free will and why it was possible to fall away from **GOD**, and many other things. One third of His children – Sadhana and her cohorts – fell away, the other two thirds are serving **UR** (the primordial **GOD**) in the fashion of co-bearers of the ultimate love-sacrifice in order to facilitate the home-bringing of all fallen ones.

All works of Anita Wolf are glorious spiritual presents from **GOD** and help strengthen us for the homeward path, which is not always easy!

"He stores up sound wisdom for those who are upright." ³

JESUS' BLESSINGS AND HIS GRACE BE WITH YOU ALL

³ Proverbs 2:7
